## **L.B Dub Corp | Biography**

Following a five-year hiatus, Luke Slater reanimates his L.B. Dub Corp alias for a whopper of record on the Dekmantel imprint.

The 1990s techno legend – also known as Planetary Assault Systems – has teamed up with many fellow stars of the game, including Robert Owens, Tikiman, Miss Kittin, and more, for a vocal lead ode to the club.

Compacting his more-than-three-decades-worth of experience in a live performance for Dekmantel 2024, Slater tells the story of his life in music, which means his life overall, without ever being stuck in the past. Predicted are rolling drums, elastic synths, and ear-worm vocals that take center stage as Slater crosses territories into every corner of the dance canon, from deep house to dub to techno and back again.
